### During Delhi Programme Message – 1

All of you dear ones are welcome in this programme from the depth of my heart. I realise and appreciate the efforts, which you have made, and the difficulties, which you have faced in reaching here, very far from your hearths and homes.

This is the work of my beloved Sat Guru Sant Ajaib Singh Ji Maharaj, and I am nothing but a puppet to Him, and would just do, what He bids me to do. As you know, He was the manifestation of Sat Purush, and had assumed a human body, which is invariably a place of pain and suffering, only for our sake. His great and gracious Guru, Sant Kirpal Singh Ji Maharaj had told him lovingly, that there were many people who could explain the theory beautifully in flowery words, but having no inner ascent and achievement to their credit, and having not realised God, nor even the self, they were themselves in darkness, and also lead others into the ditch of ignorance. He had therefore advised His Gurmukh Son Sant Ajaib Singh Ji that he should ensure that this sacred and inner path of God realization viz meditation, sacrifice and surrender, should always remain open for those sincere and seeking souls, who are fed up of the world and worldliness and want to get rid of it and meet God. My merciful Guru Beloved Baba Ji, had also told me forcefully, despite my humble protest that, I have got the Simran and meditation done from you like a brave warrior, and made you as My own Self. Now it is your duty to connect those souls who are dissatisfied with the world, its affairs and its attachments, and want to meet God sincerely, by persuading them to extricate themselves gradually, from the ever rising sweep of passions and possessions, me and mine, pride and prejudice, and name and fame, and meditate with the technique, of which I have made you perfect. This would enable them to progress inwardly, and traveling up, plane by plane, with their own sustained effort and with the unbounded grace of the Guru, reach their eternal home, in the course of time.

Dear ones I know that many or most of you are keen and anxious to meet me. May I tell you that I too have a strong and surging desire to meet each one of you, for two main reasons; (1) to be able to see the spectacle how my Great Guru is there inside you in various hues and colors and (2) to enquire about your spiritual well being, about which Beloved Baba Ji is immensely worried, and wants it to improve, sooner than later; and offer my humble assistance and help to those who have any problem whatsoever on this account, so that dry and dreary as our hearts have become, may be refreshed and re- greened with the spiritual water of Satsang, and may be inspired to take to Simran and meditation, with renewed zeal and enthusiasm, to register progress and development.

Esteemed brothers and sisters, this is the main purpose for which I have traveled a long distance and come here. I am a poor man, and to remain away from work by which I earn my living is not easy, but it is the grace and kindness of beloved Baba Ji which has brought me here, amidst all of you, His spiritual children, for your sake, and for the benefit of you dear ones and upliftment of your souls.

So dear ones, dont hesitate, dont keep thinking, come with as open a heart as you can, and with as clean and clear a mind as you can make it, and avail of my sincere and selfless service and sewa. I hope that you know why am I pressing you to come forward with your problems and difficulties about meditation, for if the same are removed with my help and sewa, then you will be encouraged to devote more time towards Simran and meditation, and the more the time you will give, with no hurdles and hardships in between, the more will you progress, and the more will be the pleasure and happiness of my Guru. After all what is the optimum for which we all

wish on this path--- happiness, acceptance and pleasure of Baba Ji and if we get the same by doing the meditation, correctly and constantly, then what further remains. Our purpose of life stands fulfilled.

I therefore beg of you--my dear brethren in faith, to get the problems in meditation solved, and focus whole-heartedly and single-mindedly in meditation. I am always a cleaner of the shoes of the esteemed sadh sangat and their full time server and servant, with no wage and esteem.
